If you would like to have a topic added to the agenda, please notify Joy Willis by January 4, 2020.

Member Training

Seminar Title: Rough and Final Inspections of Fire Sprinkler Systems

Seminar Description: This one-day seminar provides attendees with vital information on how to conduct the field inspections for new fire sprinkler and standpipe systems. Fire sprinklers and standpipes are installed in stages and inspections are required before commencing to the next stage. The codes require periodic on-site inspections as the work progresses, to be installed according to the approved construction documents. This work is required to be inspected and approved before being covered or before the system is commissioned. This course points out the visual and physical inspection requirements of the latest codes and standards.

Attendees must bring a copy of NFPA 13, NFPA 14 and IBC or IFC to class.

Member Training: January 23, 2020, 9 am – 5 pm
(Membership Meeting and Lunch Included in Fee)
\$100.00/attendee for members, \$250.00/attendee for non-members

Location: TopGolf Birmingham, 1111 24th St. North, Birmingham, AL 35234
